Clip AI Card	**500**	**8 papers**	**National 1st Prize**
Personal Agent · website live	target-user interviews	2026 int'l conferences	Advertising Art Contest

Education

Communication University of China | B.A. in Advertising — Sep 2024 — Jun 2028 (expected)

Ranked 1st in major (1/39) · GPA 3.78/4.0 · First-Class Scholarship · "Academic Star" · CET-6

AI Product Experience

Beijing Zhigeng Yuanjian Technology Co., Ltd. | Founder & Product Lead — Nov 2025 — Present

Interviewed 500 target users; own definition, PRDs, prototypes and commercialization for 3 AI product lines.

Clip AI Card | Personal Agent hardware + software clipai.space live — Product Lead

- Designed a foldable AI card for the "daily life → Agent" entry gap: capture → authorize in app → Agent executes → status on card; planned card / iPhone / Mac roles and data permissions. Website and demo live.

MeetFlow | Personal AI Company, a digital-employee platform Jingcai OPC 2nd Prize — Solo project · in internal testing

- **Insight:** AI tools offer capability, not labor: no roles, context or collaboration, so people still manage. For teams of 1–20.
- **Design:** users state a goal; the system splits it into tasks for digital employees with long-term memory, who dispatch executors like Codex / Claude. The founder only makes key decisions and signs off.
- **Mechanisms:** task routing, cross-task memory, progress board, human review; per-employee / team subscription pricing.

SparkFlow | AI co-writing for professional documents Challenge Cup Beijing, 3rd Prize — Project Lead

- **Question-led co-creation:** structured questions let the AI understand and guide the user's ideas, reducing cognitive load; Skills then draft and review.
- **Agentic RAG:** built a media-domain knowledge base from CMG (China Media Group) resources to ground outputs.

AI Agent Development & Research

State Key Lab of Media Convergence & Communication, CUC | NPOL public-opinion Agent — Jul 2026 — Present

- **Agent product:** designed and built an Agent where one sentence starts monitoring: web search → plan → multilingual multi-source collection → trend analysis → illustrated report in minutes; supports editing, AI revision, DOCX export and push.
- **Evaluation:** studied tool calling, shared context and multi-Agent collaboration; benchmarked task success, token cost and latency.

University of Miami | Remote Research Assistant · AI video-coding Agent — Aug 2026 — Present

- Turned a TikTok codebook into rules and prompts; built a JEV + LLM pipeline (auto-label → validate → human review); evaluated agreement and edge cases in Python.

Publications | AI and user trust — 2026

- First-author oral talks at **IAMCR, ICA Beijing regional (×2), NCA Xiamen and the Intl. Forum on Intelligent Communication**; **Best Poster** at the 6th Social Bots Forum; 2 papers accepted at AIEM 2026 (HKBU). E.g. AI bylines & news trust (N=327).

Internships

CMG | CCTV Music | New Media Producer — Jan 2025 — Present

- Built the *Zuo'an Youyue* short-video channel from 0 to 1: **15M+** views, top video 5.27M; AIGC assets with Lovart and Veo.

ByteDance | Douyin Campus | Editor — Nov 2024 — Jan 2025

- Ran a national campus open day for **5,000+** students; handled communication, operations and review; wrote the SOP.

Honors & Awards

- **National 1st Prize**, China College Students' Advertising Art Festival (2026) · **2nd Prize**, Jingcai OPC Startup Competition (MeetFlow, solo) · **3rd Prize**, "Challenge Cup" Beijing Entrepreneurship Plan Competition (SparkFlow, lead)
- **First-Class Scholarship** · Outstanding AI Short Film, Beijing Intl. Audio-Visual Conference · Excellence Award ×4, Daguangjie Awards · Beijing innovation project (Excellent)

Skills

AI product	PRD, prototyping, user interviews, competitive analysis, prompting, Agent workflows, RAG, Skills, MCP
AI coding & data	Claude Code, Codex, Cursor, Python, R, APIs, batch scripts, evaluation
Research	experiments, surveys, computational text analysis (LDA), regression / moderation
